Application: [PL/2022/00633](#)

Location: The Park, Ogbourne St George, Marlborough, SN8 1SL

Proposal: Mature Holm Oak (T1 on attached plan). Quercus Ilex. This Large and Mature Tree has a main trunk and canopy, but also has 3 separate branches originating from below soil level at the base of the main trunk. These 3 limbs substantially overhang the adjacent high street, and footpath, and are growing into and around the electricity cable that runs parallel to the footpath. The applicant is concerned about the potential hazard to vehicles on the high street and the neighbouring property directly opposite the tree, and potential damage to the electricity cables. Our intention is to cut back the 3 overhanging limbs to eliminate the overhang to the road and power cables. This will leave the main body of the tree untouched, and the pruning will be done in such a way as to leave the tree in a natural looking and safe condition.
