Good Afternoon.

Sorry Rachel, life is just busy these days. I find it difficult not to simply respond yes or no. And end up writing an essay.

Your preferred location would be acceptable to us although you will need to make sure that the sign is positioned clear of the footway by at least 2.1 metres to prevent pedestrians from colliding with it.

I would say that the overhanging tree might cause you an issue with the sensor and future visibility of the sign.

Regards.

Martin Cook

Subject: SID on the Marlborough Road, Og St George

So ignore my last message!! Apparently we can order a post from Elan City – so all good!

However - we'd like to consult with you on the position of the SID before we go ahead. We feel that the position you have suggested won't work for the village – its next to a gate with farm vehicles needing access, BT vehicles often park there to access the BT station and finally its opposite a house so we feel the flashing lights will not be very neighbourly!

We would like to suggest we cite it here
<https://what3words.com/button.worked.having> - it is not opposite a house as you can see from the attached photograph.

Please let me know your thoughts

Thanks

Rachel

Dear Martin

I hope you're well.

Just catching up on this, and wondering if you could advise us on a post?

Thanks

Rachel

That's so kind of you to get back to me so quickly Martin. Thank you.

We obviously put our other SID (on the Aldbourne road) on an existing post so we didn't have this problem. Would you maybe have a contractor in mind that we could approach to erect a post, otherwise we can find someone to come out and put it up.

Thanks Martin

Good Afternoon Rachel.

Seems like a long time since we spoke. I trust you are well?

A SiD unit on the Marlborough Road would, I think be very beneficial.
I concur with your proposed location as long as the hedge is well kempt.

It is far enough into the restriction to be effective and it can be swung around to operate in the opposite direction.

Now we need to work out how to get a post erected?

Regards.

Subject: SID at Ogbourne St George

Dear Martin

Just to follow on from our last meeting, I can report the SID is now up on the road into the village from Aldbourne which is great news.

The parish council would like to explore purchasing another SID – this time to go on the road out of the village towards Marlborough.
<https://w3w.co/saves.rocket.using>

We have had many villagers ask us what we can do to reduce speeding on this road, as it's a straight stretch out of the village, I think drivers put their foot down slightly too early! In fact the other day, a resident's cat was killed on this stretch by a driver going too fast.

Back in December 2020, when the traffic survey was done, the data showed that this stretch was a bad spot for the village, and some sort of intervention would be warranted.

We are happy to purchase the SID ourselves, but obviously want to check you're happy for us to, and to seek your advice on the best place for it.

Many thanks

Rachel
